CAREER OBJECTIVE

Motivated Computer Programming student interested in software development and programming. Currently developing skills in Java, DBMS, JDBC, SQL, and Data Structures through academic learning and practical projects.

EDUCATION

LJ University — Computer Programming | 2025 – 2029

TECHNICAL SKILLS

Java • MySQL • SQL • DBMS • JDBC • Data Structures • Object-Oriented Programming • Exception Handling • Collections • File Handling • Multithreading • IntelliJ IDEA • Git • GitHub

ACADEMIC PROJECT

E-Learning Management System

Technologies: Java, MySQL, JDBC, SQL, Data Structures

Developed an E-Learning Management System using Java, MySQL, JDBC, SQL, and Data Structures. The system includes Student, Teacher, Course, Quiz, Result, Assignment, and Attendance Management.

CERTIFICATION

Inheritance and Data Structures in Java — Coursera | July 2026

Credential ID: MIL35O17AR7V

Verification: <https://coursera.org/verify/MIL35O17AR7V>

INTERESTS

Software Development • Java Programming • Data Structures & Algorithms • Database Management • Building Programming Projects

PERSONAL STRENGTHS

Quick learner • Problem-solving mindset • Practical programming • Willingness to learn • Project-oriented approach
